

Seeder Setup Workshop

SEEDER BAR BASICS - AIR CART SETUP - WINTER CROP ESTABLISHMENT

NORTHERN REGION
MARCH 2026

Lockhart

Venue: "The Wattles" 179 Wattles Road, Lockhart NSW

Grain growers, planting contractors and industry stakeholders are invited to participate in one of a series of GRDC 2026 Seeder Setup Workshops.

This workshop, hosted by Riverine Plains, will include a range of local seeder bars and air carts. Hear from independent and industry experts on effective seeder bar and air cart set up to improve winter crop establishment, crop establishment fundamentals, adjusting to local conditions, benchmarking and financial considerations, as well as keeping safe during sowing.

PRESENTERS

Brett Asphar - Independent Specialist
Lynn Macaulay - Riverine Plains
Drew Hawkins - AgriPath
Industry representatives - Seeder bars & Air carts

Program

- Seed testing, purchases and calculations – managing your most critical input at sowing
- Managing variability in local soil and seasonal conditions at sowing
- Seeder bars – setup and maintenance & review of local implements
- Air carts – setup and maintenance & review of local implements
- Benchmarking and financial decisions for seeders & air carts
- On farm safety at sowing time
