

JUNIOR WORKSHOPS, GRADES: 1 - 3

Adaptation and Animal Behaviour Program

FREE workshop

Dive into the amazing world of marine animals! This interactive workshop involves meeting real sea creatures and discovering how animals use special adaptations and behaviours to survive. Through hands-on activities and live animal encounters, you will explore how marine animals move, eat, and stay safe in the ocean. It's a fun and unforgettable learning experience!

This workshop runs from 4:30pm - 5:30pm

It's Rocket Science

FREE workshop

Come along for an out-of-this-world science adventure! In this exciting, hands-on workshop you will explore how things fly and how forces work. Through fun experiments and interactive activities, discover how scientists and engineers design rockets and solve real-world problems. Please bring a 1.25L empty soft-drink bottle.

This workshop runs from 4:30pm - 5:30pm

Wonder Bubble Slime

FREE workshop

Attention all slime lovers! Science has never been more fun than when you blow the biggest slime bubbles EVER using our unique Lab Kids Wonder Bubble Slime formula. Discover the chemistry behind slime as you investigate polymers, elasticity, and the forces that allow bubbles to form and grow.

This workshop runs from 5:45pm-6:45pm

Basquiat Art

FREE workshop

Get ready to unleash your inner artist in our Basquiat inspired Art Workshop! You'll learn how to create a self-portrait using bold colours, thick outlines, and stylised shapes. If you love drawing, colouring, or just making something totally unique, this workshop is for you!

This workshop runs from 5:45pm - 6:45pm

SENIOR WORKSHOPS, GRADES: 4 - 6

Wonder Bubble Slime

FREE workshop

Calling all slime fans! Get ready to create giant slime bubbles using our special Lab Kids Wonder Bubble Slime recipe. Explore the science of polymers, stretchiness, and the forces that make bubbles expand and float.

This workshop runs from 4:30 - 5:30pm

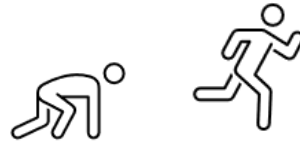

Sport Skills

FREE workshop

Get ready to boost your change of direction, throwing, and catching skills in this fast-paced, action-packed session.

Through fun drills and dynamic games, you'll improve your agility, coordination, and your reaction time.

Perfect for kids who love to move, compete, and level up their sporting abilities!

This workshop runs from 4:30 - 5:30pm

Basket Weaving

FREE workshop

Get creative and try something new.

Join this workshop to learn how to weave your own basket and discover the stories behind this special First Nations tradition.

This workshop runs from 4:30 - 5:30pm

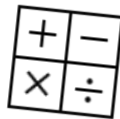

SENIOR WORKSHOPS, GRADES: 4 - 6

Marvelous Maths

FREE workshop

Get ready for a marvellous mathematics adventure filled with mind-bending riddles, cool puzzles, creative crafts, and thrilling races—but wait, that sounds like too much fun for maths!

Well here at GLC, we know how to make maths fun. So, are you ready for some challenges that will put your problem-solving skills to the test? Come along and find out for yourself—because this action-packed workshop will make you see math in a whole new way!

This workshop runs from 5:45 - 6:45pm

Digitech-code and construct

FREE workshop

Step into the exciting world of coding and robotics! In this hands-on workshop, you will use Microbits to create simple games and digital pets, explore game design with Scratch, and tackle robotics challenges with LEGO Spike Prime. Join this fun workshop to build your coding and problem-solving skills.

This workshop runs from 5:45 - 6:45pm

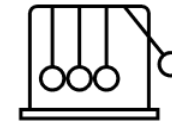

Seriously Silly Science

FREE workshop

Explore the world of polymers as you mix materials to make some truly wacky creations!

In this workshop students will see changes in the physical properties of the materials and have a go at making some synthetic materials.

If you love science and seeing how things are made, this workshop is for you!

This workshop runs from 5.45pm-6:45pm
